

WrapStrap™

House Wrap Strapping

SPECIFICATION

PRODUCT DESCRIPTION

WrapStrap™ is a - Non Stretch - Polythene embossed strap that is installed around the building wrap to keep the insulation in place and prevent it from bulging into the cavity for buildings with a drained cavity application.

PHYSICAL PROPERTIES

Fire rated building wrap (Masons FR1) held in place over insulation with wrap strapping keeps the insulation in place and prevents it catching fire to a tested standard.

COMPATIBILITY

Masons WrapStrap is compatible with all building wraps.

INSTALLATION

After the installation of building wrap the WrapStrap is strapped horizontally around the frame. The strapping can be secured with a staple, screw or nail. A common sense approach to the distance between the horizontal strapping must be used.

DURABILITY

Not less than 50 years for building wrap and strapping used where the cladding DURABILITY requirement or expected serviceable life is not less than 50 years.
