

Knauf Insulation Duct Roll

Knauf Insulation Duct roll is specifically designed as an exterior insulation for rectangular or round sheet metal ducts.

The strong foil facing and premium density of **28kg/m³**, makes Knauf Insulation Duct roll a good solution for surfaces where temperature and condensation must be controlled.

Knauf Insulation Duct Roll

Knauf Insulation Duct roll is made with high performing Earthwool® glasswool insulation, which contains no added formaldehyde.

Features

Rolls knit together

Made using recycled glass

Premium 28kg/m³ density

Made with ECOSE® Technology

Benefits

Prevents heat loss

Sustainable product with inherent fire performance

Superb acoustic performance

Low dust, easy to cut, softer to touch, faster to install

Product Code	R-Value (m ² K/W)	Density (kg/m ³)	Thickness (mm)	Length (mm)	Width (mm)	Area per roll (m ²)	Rolls per Supakube
2400374	0.7	28	25	18	1200	21.6	18
2400372	1.5	28	50	9	1200	10.8	18
